## Mindset for Participating in the Exchange Program

The student exchange program is based on bilateral agreements with partner institutions, allowing students to be mutually exchanged. As each host university has a limited number of spots available, students who are accepted will be sent as representatives of Ritsumeikan University.

Since students are often expected to take regular courses at the host university that align with their field of study, a relatively high level of language proficiency and academic ability is required. Furthermore, students must be responsible for handling various procedures and potential issues before, during, and after the exchange period. Therefore, mental resilience and adaptability are also essential qualities. We ask that you participate in this program with full awareness and commitment from the very beginning.

Finally, while preparing for your exchange and living abroad, you may face various challenges. Please try to resolve them on your own first, but if you find it difficult, do not hesitate to consult with the International Center. We wholeheartedly support each student's journey and challenge.

# I. REGARDING THE CHANGE IN SELECTION PROCEDURES

International Center, Ritsumeikan University

To All Applicants for the Exchange Program

Starting with the recruitment for the Fall 2026 Student Exchange Program, the selection process was partially revised. This update aims to shorten the selection period, expand application opportunities, and enrich support system for those who are accepted to the program. The main changes are as follows:

## 1. Selection Process Change

Regardless of the language of instruction, the previous two-step selection process (document screening → interview) will be replaced by a comprehensive evaluation based solely on document screening (application report and GPA). For details on the screening criteria, please refer to Section 6 “Screening / How to Apply” in the application guidelines.

## 2. Language Proficiency Confirmation(※1)

Regardless of the host institution, applicants who wish to study abroad in English will be required to submit language test scores to confirm they meet the language requirements of the host university.

For applicants who wish to study abroad in languages other than English, an interview will be conducted to assess whether the applicant meets the language requirements of the host university, regardless of whether a language certificate is submitted. This interview will not affect the document screening evaluation (no additional points or deductions); it is solely to confirm whether the applicant meets the required language level or is expected to reach it by the time of departure.

## 3. Interview Scheduling for those who wish to study abroad in languages other than English

Interviews will be conducted along with document screening. While they are primarily scheduled on weekends as in previous years, depending on the number of applicants, some interviews may be held on weekday evenings.

The International Center continues to review the selection process to expand application opportunities and enrich support system that students can receive after the acceptance of the program until their departure. Further revisions may be made in the future, and any updates will be announced in advance via platforms such as moodle+R. Please note that any changes will be made with consideration to avoid affecting ongoing selection processes.

### ※ I Notes on interviews for languages other than English

Unlike TOEFL or IELTS, opportunities to take the language tests required by some host universities may be limited within Japan for languages other than English. In some cases, host universities may not require submission of language scores. However, as students are sent to our partner universities as part of a university-led program, we conduct interviews to ensure that applicants possess the minimum language skills necessary to adapt smoothly to life and classes abroad.

courses depending on the students' language level. Some language courses require additional fees.

- This screening within Ritsumeikan University is to select student exchange nominees for host institutions. The final decision to accept an exchange student is left to the host institution. Why do you want to study at this institution?	State the reason why you would like to study at the selected institution.
Study Plan by language of study	Please check one of the boxes.
Intended Academic Courses	<p>Based on the reason stated in the section above and your goals of studying abroad, select up to 4 courses you would mainly like to study at the selected institution and write the title of the courses. Write the course codes of the selected courses.</p> <p>Leave the section of “Course Code” blank if that information is not available.</p> <p>*Write down the English translation if the course titles are not in English.</p>

**【Important Notes for Selecting Courses】**

In most cases, except for some courses referred to in the “Remarks” section in the Application Requirements, you can choose any courses of interest offered at a host institution, regardless of your major and faculty at Ritsumeikan University; however, you cannot always register courses of your first choice due to limited seats, the sudden cancellation of courses, etc.

It is very important to consider in advance, whether your purpose and goal of studying abroad can be achieved at the institution even if you cannot take certain courses that you wish to take. It is important to select alternative courses in addition to your first options, and make sure that there are enough courses to choose from when selecting a host institution.

Referring to the “Remarks” field in the Application Requirements, please check if you are qualified to take the courses you are selecting in terms of the following three points.

After confirming the restrictions and prerequisites of each selected course, please be sure to check the box  at the top of the Study Plan.

	<p>① <b>If courses are open to exchange students</b>  <u>e.g.</u>  ● In most cases, courses in Medicine and Dentistry are not open to exchange students  ● At some institutions, you cannot take Psychology or Law courses if you are not majoring in those subjects at Ritsumeikan. Other universities have their own restrictions, so</p> <p>② <b>If you meet the language requirement</b>  ● Even if courses are open to exchange students, some courses require higher language scores. At some institutions, the language requirement differs for each department. Please carefully check what department/faculty offers the courses you are selecting and the faculty-specific minimum language requirement.  Please also refer to “Remarks” and the cover page of the Application Requirements.</p> <p>③ <b>If you meet the prerequisites of the courses</b>  For some courses, there are prerequisites (e.g. major, background knowledge, study year, experience taking certain subjects, language requirements). Information is available in the course list of the host institution.  <u>e.g.</u>  ● Taking the course “○○ I” is required before taking “○○ II”  ※ If you are taking courses at Ritsumeikan which meet the prerequisites of the host institution's courses prior to the study abroad period, you may be able to negotiate registration for the courses without completing prerequisites at the host institution.  ※ Plan your studies flexibly, considering the possibility that courses may be full or cancelled.  ● Check if there are descriptions of course codes  Many institutions organize their courses by specific codes, which often indicate the study level of each course.  Ex) Courses starting with 4000 and 3000 are for 3rd and 4th year students etc.  Check the institution website and see if they have such descriptions on courses codes before selecting courses.</p>
