2027 Academic Year Fall Departure Student Exchange Program

Mindset for Participating in the Exchange Program

The student exchange program is based on bilateral agreements with partner institutions, allowing students to be mutually exchanged. As each host university has a limited number of spots available, students who are accepted will be sent as representatives of Ritsumeikan University.

Since students are often expected to take regular courses at the host university that align with their field of study, a relatively high level of language proficiency and academic ability is required. Furthermore, students must be responsible for handling various procedures and potential issues before, during, and after the exchange period. Therefore, mental resilience and adaptability are also essential qualities. We ask that you participate in this program with full awareness and commitment from the very beginning.

Finally, while preparing for your exchange and living abroad, you may face various challenges. Please try to resolve them on your own first, but if you find it difficult, do not hesitate to consult with the International Center. We wholeheartedly support each student's journey and challenge.

I. PROGRAM DETAILS

Program Aims and Objectives	To study specialized fields utilizing advanced language skills
Language	English, Spanish, German, French, Italian, Chinese
Country/Area	【English】 North and Central America/Europe/Asia/Africa 【Spanish】 Spain/Mexico 【German】 Germany/Switzerland 【French】 France 【Italian】 Italy 【Chinese】 China/Taiwan
Duration	I Academic Year or I Semester *Departures generally take place between August and October. *The start and end dates are from orientation until the end of final examinations. However, the actual dates differ for each host institution.
Program Description	This program provides students with an opportunity to study abroad at one of Ritsumeikan University's student exchange partner institutions for one semester or one academic year. Students will take subjects related to their major field of study or those of interest. If the students' language abilities are not at the level required by the host institution, they may not be able to take their intended courses or will need to study in a special language course (ESL, etc). This case applies especially to students who will study abroad in countries where the native language is not English. ★Examples of common patterns of the program study plans <If you are planning to study in English> Study subjects in fields related to your interests to deepen your specialized knowledge. Students may have to take language courses or be subject to certain course restrictions depending on their official English scores. <If you are planning to study in languages other than English> Study to improve language skills as well as to study subjects in fields related to your interests. Often students study the language intensively in the 1st semester, and if they meet the language requirements, they will be able to study academic courses of their interest in the 2nd semester. However, if they do not meet such requirements, they may continue studying the language in the 2nd semester. (At some institutions, language courses may require additional fees.)

Number of Students Being Recruited	Differs for each institution. Please check the separate "Application Requirements" file. <u>*Applicants can submit up to 5 institution preferences.</u>
Housing	Dormitory, apartment, or homestay (students are responsible for their own housing arrangements/applying for the dormitory if available.)
Screening	Document screening is conducted for all applicants. Interview screening is conducted only for students planning to study in languages other than English ※ The International Center will notify the applicable applicants of the specific time of the interview.
Student registry status while abroad	One semester study: 2027 Fall: "Study Abroad" 2028 Spring: "Currently Enrolled" One academic year study: 2027 Fall: "Study Abroad" 2028 Spring: "Study Abroad" *The period for which your student registry status is "Study Abroad" is counted as a part of the required enrollment period at Ritsumeikan. *The periods that you are actually studying abroad and that your student registry status is "Study Abroad," may not match. The period of "Study Abroad" status is determined by your college office. *Your student registry status changes to "Study Abroad" on the first day of the semester (4/1 or 9/26), which your college approves as the period of Study abroad and this status usually continues until the end of the same or following semester (9/25 or 3/31).
Grading, Credits	Students take academic courses held at the host institution. Students can submit a credit transfer request to transfer credits earned at their host institution back to Ritsumeikan after returning to Japan.
Fees	【Program Fee】 *The amount is based on last year's requirements. Successful candidates must pay the Program Fee by the specified deadline. The details will be announced in the Guidance Session for Successful Candidates. One Semester: 24,000 JPY One Academic year: 37,000 JPY 【Tuition and Other Fees】 <u>Students do not need to pay any tuition to the host institution but must keep paying regular tuition to Ritsumeikan by the designated deadline while studying abroad.</u> Other costs such as airfare, accommodation fees, personal expenses, and tuition for language or special courses at the host institution will all need to be paid by students. Students are also required to purchase the Ritsumeikan-designated overseas travel insurance and risk management service in order to participate in the program.
Scholarship	Ritsumeikan University Study Abroad Challenge Scholarship (hereinafter Challenge Scholarship) In principle, all successful candidates are expected to receive this scholarship (application not required). The scholarship policies for AY2027 and onward are currently under review. Thus, details of the scheme, including the exact

	amount, will be announced once finalized, and this application guide will be updated accordingly. External Scholarships The Japan Student Services Organization (JASSO) Support Program for Overseas Study (Student Exchange Support Program) Scholarship is an external scholarship program for which applications must be submitted through the university. If the scholarship is offered, students who meet the academic requirements and other eligibility criteria established by JASSO and successfully pass the university's internal selection process will be eligible to receive the scholarship. Please note that the scholarship may not be available in a given academic year depending on the circumstances of the program. Information regarding whether the scholarship will be offered, as well as details of the application procedures, will be announced via Moodle+R around April 2027. For inquiries regarding the JASSO Support Program for Overseas Study (Student Exchange Support Program) Scholarship, please contact the International Education Center. *Please note that only Japanese nationals and individuals who have been granted permanent residency in Japan, including Special Permanent Residents, are eligible to apply for this scholarship. For other scholarships, please check this webpage.
Others	• The application requirements are set by each institution at the time of publication of the "Application Guidelines" file. <u>The language and other requirements may change without prior notice after the internal application period.</u> • Even if the submission of the official score of the language test is not required at the time of the internal screening at Ritsumeikan, students are strongly encouraged to take such tests to enhance their opportunities during the program period. Please continuously brush up on your language skills in order to successfully follow lectures at the host institution. • <u>Some institutions may only permit students to take language courses or may require language courses to be taken alongside academic courses depending on the students' language level.</u> Some language courses require additional fees. • This screening within Ritsumeikan University is to select student exchange nominees for host institutions. <u>The final decision to accept an exchange student is left to the host institutions.</u> In order to become an exchange student officially, after being selected as nominees, students are required to submit applications and be accepted by host institutions. There are some cases where additional language evaluations such as online language tests or interviews may be held by host institutions when applying.

	• <u>If students do not have the required GPA when they start the program, they may lose their eligibility for the program.</u> • <u>Students are responsible for their application to the host institution, housing arrangement, flights arrangement, course registration, and other required preparation.</u> • Students are required to apply for the necessary visa to participate in the program through the university designated visa agency (JACC Overseas Corporation). The amount of visa application fees depend on the destination; however, it may cost in some cases approximately JPY200,000. <u>If the destination does not allow an agency to apply for the visa on the students' behalf, students need to apply for their visa on their own.</u> • <u>In addition to the overseas travel insurance designated by Ritsumeikan University (JPY141,330 for 10 months in 2026), students may be required to purchase local health insurance depending on the policy of the host institution (some cases in USA: JPY 400,000).</u> • <u>Some universities may require a bank balance certificate for admission screening and other procedures (approximately US\$13,000 - 35,000)</u> *Please note that the amount of money that needs to be certified changes every year. <For applicants' reference> • Reports from students who previously participated in the exchange program are available on the International Center webpage. https://global.support.ritsumei.ac.jp/hc/en-us/articles/19055465074835-Application-Guidelines-etc-Student-Exchange-Program

Screening Criteria		
Document Screening	Application Report	1. Clarity and persuasiveness of the purpose of participating in the program 2. Clarity and persuasiveness of the study plan/theme during the program and your study and career plans after returning to Japan 3. Proactiveness and planning in study abroad preparation
	Grades	Grades at Ritsumeikan
Interview	An interview will be conducted to assess whether the applicant meets the language requirements of the host university, regardless of whether a language certificate is submitted. This interview will not affect the document screening evaluation (no additional points or deductions); it is solely to confirm whether the applicant meets the required language level or is expected to reach it by the time of departure.	

※ Submission of an English language proficiency score is mandatory for applicants who wish to study abroad in English. For languages other than English, if the host university explicitly requires a language score, submission of that score is also required.

※ As mentioned above, interviews for languages other than English are conducted to assess language proficiency. Even at the time of the interview, if it is determined—taking into account the expected improvement in language skills before departure—that the applicant will not be able to meet the language requirements set by the host university by the time of departure, the applicant may be disqualified.

【How to fill out a Study Plan】

You can download the prescribed format from the International Center's website.
"Application Guideline" page.

【Important Notes for Selecting Courses】

In most cases, except for some courses referred to in "Remarks" in the Application Requirements, you can choose any courses of interest offered at a host institution, regardless of your major and faculty at Ritsumeikan University; however, you cannot always register courses of your first choice due to limited seats, the sudden cancellation of courses, etc.

It is very important to consider in advance whether your purpose and goal of studying abroad can be achieved at the institution even if you cannot take certain courses that you wish to take. It is important to select alternative courses in addition to your first options and make sure that there are enough courses to choose from when selecting a host institution.

	Referring to the “Remarks” field in the Application Requirements, please check if you are qualified to take the courses you are selecting in terms of the following three points. <u>After confirming the restrictions and prerequisites of each selected course, please be sure to check the box ☒ at the top of the Study Plan.</u> ① If courses are open to exchange students <u>e.g.</u> ● In most cases, courses in Medicine and Dentistry are not open to exchange students ● At some institutions, you cannot take Psychology or Law courses if you are not majoring in those subjects at Ritsumeikan ② If you meet the language requirement ● Even if courses are open to exchange students, some courses require higher language scores. At some institutions, the language requirement differs for each department. Please carefully check what department/faculty offers the courses you are selecting and the faculty-specific minimum language requirement. Please also refer to “Remarks” and the cover page of the Application Requirements. ③ If you meet the prerequisites of the courses For some courses, there are prerequisites (e.g. major, background knowledge, study year, experience taking certain subjects, language requirements). Information is available on the course list of the host institution. <u>e.g.</u> ● Taking the course “○○ I” is required before taking “○○ II” ※ If you are taking courses at Ritsumeikan which meet the prerequisites of the host institution's courses prior to the study abroad period, you may be able to negotiate registration for the courses without completing prerequisites at the host institution. ※ Plan your studies flexibly, considering the possibility that courses may be full or cancelled. ● Check if there are descriptions of course codes Many institutions organize their courses by specific codes, which often indicate the study level of each course. Ex) Courses starting with 4000 and 3000 are for 3rd and 4th year students etc. Check the institution website and see if they have such descriptions on courses codes before selecting courses.
②	Application Report
	【Important Notes for creating an application report】 1. When creating reports, make sure to follow the instructions for each question. 2. Reports must be written by the applicant. 3. Please write the application in Japanese or English.

5. Health and Risk Management During the Study Abroad Period

Judgement Criteria for Cancellation of Study Abroad Programs

- In study abroad programs coordinated by the International Center, decisions on whether students can participate in programs will be made based on information provided by the Ministry of Foreign Affairs of Japan. Specifically, to guarantee students' safety, participation will be cancelled if a safety warning Level 2 or higher is announced for the host country or region.
- If a student has already started the program when the cancellation is determined, the student will be requested to return to Japan as soon as possible following instructions by the Ministry of Foreign Affairs of Japan, overseas diplomatic establishments, and Ritsumeikan University.
- Please also note that even in a country or region with Danger Alert Level 1, higher than Level 1, or no Danger Alert, when it is judged by Ritsumeikan University that the students' safety or

continuation of study is not guaranteed, participation will be cancelled or students will be asked to return to Japan earlier than initially scheduled.

*Please make sure to also check “6. Matters of consent Regarding Study abroad program” on this guideline.

Risk Management

Students are required to purchase the overseas travel insurance designated by RU that covers travel incidents, accidents, sickness, and the like. In addition, students are also required to purchase the “I-rac Support Desk,” which is a 24/7 travel emergency service. Further details will be provided at a guidance session after program participation has been determined.

Managing Your Health during Study Abroad

- If you are currently under treatment for certain medical conditions, require regular visits to a doctor, or have concerns about your health, make sure to consult with your doctor and parents/guardians about whether it is advisable for you to study abroad. When necessary, please obtain your physician’s approval in advance. If deemed necessary, please also inform the International Center of your health condition.
- Some host institutions may require proof of immunization and/or specific vaccinations. Please check the requirements of your host institution in advance and ensure that you meet them before departure.
- Refer to your immunization record to see if you have been vaccinated for common diseases such as measles, rubella, mumps, chickenpox, tetanus, diphtheria, and whooping cough.
- At the Medical Service Center of Ritsumeikan University, students can inquire about vaccinations or any other concerns related to their participation in a program. Please make an appointment for the “Travel Clinic” if you would like to use this service.

This Terms of Agreement ("Agreement") is entered into by and between Ritsumeikan University (hereinafter referred to as "University") and the participant in the University's Study Abroad Program (hereinafter referred to as the "Program"), administered by the International Center. To participate in the Program, the participant must acknowledge and accept that they are representing the University during the Program, and must submit the separate "Matters of Consent," signed by both the participant and their parents or guardians, indicating agreement to the terms outlined in this Agreement. Application to the Program is predicated on the fact that the student understands and agrees in full with the contents of this Agreement. In the event the participant violates any of the terms of this Agreement, or if the University determines that the participant has acted in a manner inconsistent with the expectations of a study abroad student, the University reserves the right to revoke the participant's eligibility to study abroad. This may include, but is not limited to, a directive to return to their home country prior to the scheduled completion of the Program.

Any changes in health must be reported promptly. The participant must also undergo a medical examination at the University in the year of Program departure.

designates additional insurance requirements, the participant must comply by purchasing both the University's and the partner institution's designated insurance.

1.5 The participant must timely complete all procedures necessary for their participation in the Program, including but not limited to obtaining a passport and visa, securing travel insurance, arranging travel and accommodations, and receiving any required vaccinations. The participant is responsible for any additional costs, penalties, or other disadvantages incurred due to delays in completing these procedures.

1.6 Visa issuance is at the discretion of the embassy or consulate of the destination country, and the University does not guarantee that a visa will be granted. The participant is responsible for any cancellation fees or expenses incurred if the visa is not obtained.

1.7 The participant must provide timely reports to the University during the preparation period, throughout the duration of the Program, and after returning home, as directed by the University.

2.4 The participant is prohibited from driving, operating, or purchasing any motor vehicle, motorcycle, vessel, or aircraft during the Program.

2.5 During participation in the Program, the participant shall not engage in any dangerous activities that are not covered by the University's designated overseas travel insurance, such as mountain climbing using mountaineering equipment like ice axes and crampons, bobsledding, skydiving, hang-gliding, or similar activities.

2.6 The participant must cooperate with other participants and follow group instructions provided by group leaders or supervisors during necessary situations, such as airport transfers or local excursions.

2.7 The participant must comply with the rules of any dormitory or homestay arrangements at the partner institution or other accommodations.

2.8 The participant must seek permission before recording or photographing any class or activity at the partner institution.

3. Terms and Conditions of Program Participation

3.1 Selection for the Program does not guarantee final acceptance by the partner institution, which may decline the participant for reasons outside the University's control.

3.2 No special academic considerations will be made if Program dates conflict with University lectures, examinations, or supplementary classes.

3.3 In case of a medical emergency, the University or the partner institution may authorize urgent medical treatment or surgery for the participant without their prior consent or the consent of their parents/guardians.

3.4 If travel arrangements (flights, accommodations, etc.) are provided by the University or partner institution, the participant is required to use those arrangements and is not permitted to leave or join the group independently.

3.5 The participant must promptly return home after the Program's completion. Extending or shortening the Program period without University approval is prohibited.

University.

4.2 Should the participant infringe on 1.1 or 1.2 of this Agreement in part or in full and be determined by the University to be inappropriate for study abroad, their study abroad eligibility may be revoked regardless of their will to participate.

4.3 Should the participant withdraw from the Program beyond the withdrawal deadline designated by the University, or should the University revoke study abroad eligibility, or, regardless of whether the Program has yet to begin or already begun, if the Program has to be canceled due to circumstances beyond the University's control, including early return, the participant or their parents/guardians shall still pay the University program application fees, costs incurred upon participating in the Program, costs incurred due to withdrawal/cancellation of participation/program cancellation, and cancellation fees/additional fees set by the partner institution or agencies associated with the Program. Furthermore, if there are fees for converting foreign currency into Japanese yen at the time of payment, the student or their parents/guardians shall pay these fees.

4.4 In the event of early return or withdrawal from the Program, or revocation of study abroad eligibility, the participant may be required to return any scholarships received, in accordance with the regulations of the scholarship.

4.5 The University reserves the right to withdraw the participant from the Program or instruct them to return home if their continued participation is deemed medically unfeasible.

4.6 If the University or the partner institution determines that the educational objectives of the Program cannot be achieved and that it is difficult to continue participation in the study abroad program, the participant must promptly follow instructions for returning to Japan or their home country.

4.7 The University places the highest priority on participants' lives and safety. If the Ministry of Foreign Affairs of Japan issues a Level 2 or greater safety warning and Travel Advice & Warning on Infectious Diseases for the country, region, or city where a partner institution is located based on their issued Overseas Travel Safety Information, in principle the University will make the decision to

cancel the Program. The participant who are already studying abroad when a decision to cancel the Program is made must comply with the recommendations/instructions of the Ministry of Foreign Affairs of Japan and its overseas diplomatic offices as well as the instructions of the University, and, after ensuring their own safety, return to Japan immediately.

In addition, if the University determines that the safety of its students or the continuation of their studies in a specific country or region cannot be ensured, the University may cancel the Program or order students to return to Japan even if a Level 1 safety warning has (or has not) been issued (including in cases when the program is being implemented or continued as an exception).
